When the title screen appears, press **START** or A to bring up the file-selection screen.

⚠️ **Beginning a New Adventure**

Select any file labeled New Game. After entering a name for the main character, select the file in which that name appears to start the game.

⚠️ **Continuing an Existing Adventure**

Choose a previously played file and select Start to begin playing. If you last saved inside a dungeon, you will begin at the dungeon entrance. Otherwise, you will begin at your character's house if he is a child or at the Temple of Time if he is an adult.

🌿 **Copy**

Copy data from one file to another.

🌿 **Erase**

Erase data from a file.

⚠️ **Erasing All Data**

Press and hold A, B, X, and Y while the Nintendo 3DS logo is displayed after launching the game to delete all of your save data at once.

**Data cannot be restored once erased.**
If you push **START**, you will be given the option of saving your progress and/or ending your play session. You can save your progress anywhere and at any time, except during a few special events.

---

**If at first you do succeed...**

If you successfully complete the game one time, you will have the option of playing a more challenging version of the same story, titled *The Legend of Zelda: Ocarina of Time 3D Master Quest*. You will be able to select this new option on the title screen.

---

- Data can be lost due to user action, such as repeatedly powering off and on the system or removing the Game Card or SD Card while saving. Data loss may also be caused by poor connectivity, due to dirt or dust in the system's ports. Please be aware that in these cases data cannot be restored.
1. Life gauge
Hearts are depleted when you are struck by enemies, fall from high places, or otherwise get hurt.

2. Minimap
A represents the area Link came from. ▲ represents Link's current location and the direction he is facing.

3. View Icon / Navi Icon
Switches between the two, depending on the situation. Touching the Navi Icon brings out Navi, who will offer hints and tips.

4. Rupees (money)

5. Magic meter
Indicates the amount of magic power you have left. Using spells, items, or special attacks that consume magic power will deplete the meter. The meter will not be displayed until you learn how to use magic.

6. Action Icon
Shows the action that you can currently perform.

7. Ocarina subscreen
Here you can play your ocarina. As you progress through your adventure, you will learn more songs. Tap 🎵 to check which songs you can perform.

8. Gear subscreen (page 6)

9. Map subscreen (page 7)

10. Items subscreen
Here you can assign the items you want to use to item slots. First touch the item, and then touch the desired item slot. Assigning items you use frequently to 🧨 or 🧨 will allow you to access them conveniently via the associated buttons. You can also assign items to 🧨 or 🧨. Note: Items set to 🧨 or 🧨 can only be used by touch controls.

11. Item slots
Here you can see the equipment and quest items you have gathered. To change your equipment, tap the item you would like to equip.

1. Pieces of Heart
   Collect four to add an extra heart to your life gauge (page 5).

2. Currently equipped items
You can view the world map or a map of the current dungeon here.

⚠️ **World Map**

Locations you have not yet visited will be obscured by clouds.

⚠️ **Dungeons**

As you progress through your adventures, more information will be shown.

1. **Boss Key / Compass / Dungeon Map / Small Keys**

These items are shown once you obtain them.

2. **Dungeon information**

⚽️ shows the current level, and 😈 indicates the location of the boss.
If your life gauge is fully depleted, the game will end. If you choose to continue playing, you will resume play in the area you were in or at the entrance to the dungeon you had been exploring.

If All Else Fails...
If you encounter an enemy you just can't defeat or are simply unsure of how to proceed, investigate one of the mysterious stones found next to your character's house and inside the Temple of Time.
If you push START, you will be taken to the save screen. You can select Options to change game settings.

⚠️ L-Targeting

Sets the targeting control scheme. If set to Hold, you will target enemies or other objects only while holding down □. If set to Switch, you will continue targeting even after releasing □.

⚠️ Camera Control

Allows you to invert the controls for looking up and down in first-person perspective.

⚠️ Motion Control

Sets whether or not moving the Nintendo 3DS system will change your viewpoint in first-person perspective.
