Thank you for selecting the Nintendo Land™ game for the Wii U™ console.

Please read this manual carefully before using this software. If the software will be used by children, the manual should be read and explained to them by an adult.

Also, before using this software, please read the content of the Health and Safety Information application on the Wii U Menu. It contains important information that will help you enjoy this software.
Nintendo Land is a theme park with 12 attractions featuring Nintendo's greatest game worlds! At this park, you can visit as your Mii™ character and play a variety of attractions with up to five players, taking on the role of classic Nintendo characters.
This software can be used with any of the following controllers once they have been paired with the console.

- Only one Wii U GamePad controller can be used.
- To play most multiplayer modes, each player needs a separate controller. (Additional controllers sold separately.)
- In the Attraction Tour, up to five people can play with just a Wii U GamePad and at least one Wii Remote™.
- When using a Wii Remote or Wii Remote Plus controller, you must set up the sensor bar. For details, see the Wii U Operations Manual.

**Pairing Controllers**

From the HOME Menu, select **Controller Settings** to display the screen shown to the right. Select **Pair**, and then follow the on-screen instructions to pair any controllers.
This section explains the basic controls used outside of the attractions. To learn the controls for the park’s attractions, refer to the corresponding page for each attraction.

This is a contest between two gatekeepers and one or more animals. The player with the GamePad controls the two gatekeepers at the same time, and each player with a Wii Remote controls one animal.

For the animal team to win, they must collect a set number of candies. However, the guards win if they can catch an animal three times. The more candies an animal is carrying, the slower it moves, and the easier it is for the gatekeepers to catch it.

In a two-player game, the animal team can drop candy into a candy stash.

The animal team loses one heart every time they get caught by the gatekeepers.
If there are multiple buttons, they must be stepped on at the same time.

Located under trees. Step on buttons to make the candies fall down.
Slide the GamePad stylus on the touch screen to draw a route for the Yoshi™ Cart. You have to guide him to every piece of fruit on the way to the goal. The TV screen will show you where fruit is located, along with any obstacles, but you can't see any of this on the GamePad screen. The Yoshi Cart uses up fuel as it moves. If the cart runs out of fuel or hits a hazard, you lose a life. If you lose all your lives, it's game over.
Once per gate, you can point at a piece of fruit with the Wii Remote and press □ to remove it for the Yoshi Cart. Try joining in when the cart gets going!

**Taking a Tour**

Select the train card from the menu, or get on the Tour Train in Nintendo Land Plaza and press A to join the Attraction Tour. Follow the on-screen instructions to configure settings and begin playing.

Players who are not participating in a round can vote for who they think will win. If that person wins, the player who voted for them will also get points.

If you don't see any Metroid Blast cards appearing in the Attraction Tour, it may be due to one of the following reasons:

- A paired Wii Remote does not have an attached Wii MotionPlus™ accessory.
- A Mii that hasn’t played Metroid Blast is being used.
If you connect to the Internet, the following Miiverse features will be available:

- Mii characters from all over the world can come and visit your Nintendo Land Plaza.
- When you make an in-game post, your Mii will then show up in other players' parks.
- You can give a Yeah or reply to in-game posts, and view posters' Miiverse profiles.
- You have to connect to the Internet and adjust Miiverse settings ahead of time.
- See the Internet Connection Requirements section of the Wii U Operations Manual for more information about the equipment required to connect to the Internet. Once you have all the required equipment, select Internet from (System Settings) in the Wii U Menu to configure an Internet connection.

If you don't want your Mii to visit other parks, or if you want to restrict Miiverse posting and commenting, adjust the settings via_present (Parental Controls) on the Wii U Menu.

Tap on a visiting Mii to view its profile. The following buttons will also be displayed.
