Gather Your Pikmin before the Day Ends

When the sun goes down, the explorers return to the spaceship and leave the planet's surface. At this time, Pikmin also return to an Onion, which will take off with your spaceship. However, Pikmin who either cannot reach an Onion or aren't in a squad will be left behind and will fall prey to the planet's indigenous life-forms.

Pikmin Survivors

Pikmin in a squad, Pikmin in or near an Onion, and Pikmin in the ground are safe from nocturnal predators and will survive.

Reviewing the Day

At the end of each day, look back over your exploration using the KopPad's replay function.

Planning Your Exploration

At the start of each new day, think carefully about your exploration strategy, keeping in mind the on-board crew chat and the information available on the KopPad.
The notes contain useful information, including characteristics of the various Pikmin types and an explanation of the controls. Touch on the Wii U GamePad to view the notes.

You'll come across new Exploration Notes as you progress through Story mode.
