INTRODUCTION

The Nintendo Wi-Fi USB Connector is a Nintendo DS and/or Wii dedicated wireless access point that can be installed in a USB port on a PC. Your PC must be running the Windows XP operating system for this device to work.

Up to five Nintendo DS or Wii systems can connect up to the internet at one time using this USB connector.

1. A Nintendo DS or Wii video game system.
2. A Nintendo DS or Wii game that includes the Nintendo Wi-Fi Connection feature. Look for this icon on Nintendo DS or Wii game packaging for games that include this feature.
3. A PC running the Windows XP operating system with an active broadband internet account.

NOTE: Your PC must be turned on when using this USB Connector.

WARRANTY AND SERVICE INFORMATION

This instruction booklet will show you how to install and set up the Nintendo Wi-Fi USB Connector on your PC. To complete this setup and play Nintendo DS or Wii games over the internet, you will need the following, in addition to this USB connector:

Up to five Nintendo DS or Wii systems can connect to the internet at one time using this USB connector.

NOTE: The Nintendo Wi-Fi USB Connector may get warm during normal operation.

The Nintendo Wi-Fi USB Connector is a precision electronic device that can be damaged by direct physical impact. Do not drop, hit or otherwise abuse the USB connector.

1. The Nintendo Wi-Fi USB Connector is a precision electronic device that can be damaged by direct physical impact. Do not drop, hit or otherwise abuse the USB connector.
2. Do not disassemble or try to repair the USB connector. Doing so voids your warranty.
3. Do not use or store the USB connector where it may contact moisture, dirt, dust, lint, or other foreign material.
4. Hold the USB connector straight when inserting it into USB Port.
5. Do not step on, sharply pull or bend the USB cable.
6. Do not expose the USB connector to extreme heat or cold or expose it to direct sunlight for extended periods of time.

IMPORTANT: Load the enclosed CD ROM into your PC and install the software BEFORE you insert the Nintendo Wi-Fi USB Connector into your PC's USB port. (See page 4.)

IMPORTANT: Insert this disc and follow the on-screen directions BEFORE plugging the USB connector into the PC's USB port.

3. A PC running the Windows XP operating system with an active broadband internet account.

NOTE: Your PC must be turned on when using this USB Connector.

PRECAUTIONS AND USAGE GUIDELINES

WARNING - Radio Frequency Interference

The Nintendo Wi-Fi USB Connector can emit radio waves that can affect the operation of nearby electronics, including cardiac pacemakers.

• Do not operate the USB connector within 9 inches of a pacemaker.
• If you have a pacemaker or other implanted medical device, do not use the USB connector without first consulting your doctor or the manufacturer of your medical device.
• Observe and follow all regulations and rules regarding use of wireless equipment, with resulting injuries to persons or damage to property.

COMPONENTS

Nintendo Wi-Fi USB Connector CD ROM
Contains installation software for the USB connector.

IMPORTANT: Insert this disc and follow the on-screen directions BEFORE plugging the USB connector into the PC's USB port.

Nintendo Wi-Fi USB Connector
Nintendo DS and/or Wii dedicated wireless access point which plugs into a USB port on a PC running Windows XP.

USB Cable
This cable can be used to add an extension to the USB port on a PC. Use the cable if there isn't enough room to plug the USB connector directly into the USB port, or if you need to adjust the position of the USB connector for better wireless reception.
INSTALLATION INSTRUCTIONS

Installing the Software

NOTE: You may have to temporarily turn off your firewall **BEFORE** beginning installation. Be sure to turn it back on when installation is complete.

1. Start up your PC and load the CD-ROM into the PC’s CD-ROM drive.
2. An installation window will appear on your PC screen, as shown. Click "OK" to begin installation.
3. Select a language and click "OK" to proceed.

INSTALLATION INSTRUCTIONS

Granting Permission To Your Nintendo DS or Wii System

In the task bar at the bottom of the PC screen there will be an icon to start the Nintendo Wi-Fi USB Connector registration tool. This tool is used to set permission for individual systems to communicate with the USB connector.

You will use this tool during Wi-Fi compatible game setup when you first configure your system to connect up to the USB connector. Review pages 6-7, WIRELESS COMMUNICATION GUIDELINES, to help resolve setup problems.

After configuration, the Nintendo DS or Wii system will ask to run a connection test. Select "OK" to begin test. If the test is successful, your system is ready for online gameplay. See the instruction booklet for the game you are playing for more online gameplay information.

If you have trouble installing or operating this device, please check following before calling for service:

- After software installation, your Nintendo DS or Wii must be registered with the USB connector. Review pages 6-7, Installing the Software, to help resolve setup problems.
- Verify that your internet connection is working properly.
- Your PC must be on and running the Windows XP operating system.
- Verify that the Nintendo Wi-Fi USB Connector and/or USB Cable connections are securely inserted into the USB port.
- After software installation, your Nintendo DS or Wii must be registered with the USB connector. Review pages 6-7, Installing the Software, to help resolve setup problems.
- The necessary files will automatically be installed after the USB connector is plugged into a PC. To complete the installation process, you must grant permission to your system. See page 6.
- To uninstall the registration tool, click on “Start” in the Windows XP task bar and then select “Programs” > “Uninstall Program.”
- If this device still does not operate correctly after trying the above remedies, please visit our website at www.nintendowifi.com (USA, Canada, and Latin America) or call Nintendo’s Customer Service at 1-800-895-1672 (USA and Canada only).

TROUBLESHOOTING

If you have trouble installing or operating this device, please check following before calling for service:

- After software installation, your Nintendo DS or Wii must be registered with the USB connector. Review pages 6-7, Granting Permission To Your Nintendo DS or Wii System, to help resolve setup problems.
- Verify that your internet connection is working properly.
- Your PC must be on and running the Windows XP operating system.
- Verify that the Nintendo Wi-Fi USB Connector and/or USB Cable connections are securely inserted into the USB port.
- The necessary files will automatically be installed after the USB connector is plugged into a PC. To complete the installation process, you must grant permission to your system. See page 6.
- To uninstall the registration tool, click on “Start” in the Windows XP task bar and then select “Programs” > “Uninstall Program.”
- If this device still does not operate correctly after trying the above remedies, please visit our website at www.nintendowifi.com (USA, Canada, and Latin America) or call Nintendo’s Customer Service at 1-800-895-1672 (USA and Canada only).

INSTALLATION INSTRUCTIONS

WIRELESS COMMUNICATION GUIDELINES

After you have configured your Nintendo DS or Wii to communicate with the USB connector, observe the following wireless signal strength guidelines:

During wireless communication setup or gameplay, an icon will appear on the upper or lower Nintendo DS displays showing the signal strength of the wireless signal. The icon has four modes depending on the signal strength:

![Image]

- **WEAKER**
- **1**
- **2**
- **3**
- **STRONGER**

For optimal communication, keep the signal strength at 2 or 3 by moving closer to the USB connector if necessary.

Follow these guidelines to maintain a strong signal:

- Keep the minimum distance between systems and the USB connector at 30 feet (10 meters) or less.
- Reorienting the DS or Wii console to the USB connector may boost the signal.
- Avoid having people or other obstructions between the DS or Wii console and the USB connector.
- Avoid interference from other devices. If communication seems to be affected by other devices (wireless LAN, microwave ovens, cordless devices, computers), move to another location if possible or turn off the interfering device.

If the test is unsuccessful, you will be given an error code and instructions to help resolve setup problems.
**WARRANTY & SERVICE INFORMATION**

You may need only simple instructions to correct a problem with your product. Try our website at www.nintendo.com or call our Consumer Assistance Hotline at 1-800-255-3700, rather than going to your retailer. Hours of operation are 9 a.m. to 11 p.m. (7 a.m. to 9 p.m. on weekends). Service times subject to change. If the problem cannot be solved with the troubleshooting information available online or over the telephone, you will be offered express factory service free of charge for the hardware product or component. You will bear the cost of return shipping. Please do not send any products to Nintendo without contacting us first.

**HARDWARE WARRANTY**

Nintendo of America Inc. ("Nintendo") warrants to the original purchaser that the hardware product will be free from defects in material and workmanship for twelve (12) months from the date of purchase. If a defect covered by this warranty occurs during this warranty period, Nintendo will repair or replace the defective hardware product or component free of charge.

The original purchaser is entitled to this warranty only if the date of purchase is registered at point-of-sale or the consumer can demonstrate, to Nintendo's satisfaction, that the product was purchased within the last 12 months.

**GAME & ACCESSORY WARRANTY**

Nintendo warrants to the original purchaser that the product (games and accessories) shall be free from defects in material and workmanship for twelve (12) months from the date of purchase. If a defect covered by this warranty occurs during this (12) month warranty period, Nintendo will repair or replace the defective product or component free of charge.

**SERVICE AFTER EXPIRATION OF WARRANTY**

Please try our website at www.nintendo.com or call the Consumer Assistance Hotline at 1-800-255-3700 for troubleshooting information and repair or replacement options and pricing. In some instances, it may be necessary for you to ship the complete product, FREIGHT PREPAID AND INSURED, TO NINTENDO. Please do not send any products to Nintendo without contacting us first.

**REGULATIONS FOR EQUIPMENT USE IN USA AND CANADA**

In order to comply with FCC radio-frequency emission exposure guidelines for an uncontrolled exposure, this device and its antenna must be located or operated at a distance of at least 20 centimeters from any person. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC and Industry Canada Information**

This device complies with Part 15 of the FCC Rules and RSS-210 of Industry Canada. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules and RSS-210 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user may find the following booklet prepared by the Federal Communications Commission helpful: How to Identify and Resolve Radio-TV Interference Problems. This booklet is available to the public by calling the Consumer Assistance Hotline at 1-800-255-3700, rather than going to your retailer.

**NOTICE :** This product is a Class B digital device, pursuant to Part 15 of the FCC Rules and RSS-210 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARRANTY & SERVICE INFORMATION**

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED IN DURATION TO THE WARRANTY PERIOD DESCRIBED ABOVE. TO THE EXTENT LAWFUL, NINTENDO DISCLAIMS ANY AND ALL OTHER WARRANTIES, INCLUDING ANY AND ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. EXCEPT TO THE EXTENT LAWFUL, NINTENDO SHALL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES RESULTING FROM THE BREACH OF ANY IMPLIED OR EXPRESS WARRANTIES, SOME STATES DO NOT ALLOW LIMITATIONS ON THE DURATION OF AN IMPLIED WARRANTY OR THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU.

This warranty gives you specific legal rights. You may also have other rights which vary from state to state or province to province.

Nintendo’s address is: Nintendo of America Inc., P.O. Box 957, Redmond, WA, 98073-0957 U.S.A.

This warranty is only valid in the United States and Canada.

**INTRODUCTION**

Le Nintendo Wi-Fi USB Connector est un point d'accès sans fil qui peut s'installer dans la prise USB d'un PC.Votre PC doit opérer le système d'exploitation Windows XP pour que cet appareil fonctionne.

À l'aide de cet USB Connector, jusqu'à cinq systèmes peuvent se connecter à Internet en même temps.

**IMPORTANT :** N'oubliez pas de charger le CD-ROM fourni dans votre PC et d'installer les pilotes AVANT d'insérer le Nintendo Wi-Fi USB Connector dans la prise USB de votre PC (voir page 18).

Ce mode d'emploi vous indiquera comment installer et configurer le Nintendo Wi-Fi USB Connector sur votre PC. Afin d'effectuer cette configuration et de joindre un site de jeu ou de lire sur Internet, il vous faudra disposer des appareils suivants en plus du USB Connector :

1. Un système de jeux vidéo portatif Nintendo DS ou Wi.
2. Un ou plusieurs NES ou DS de Wii qui offre la fonction Nintendo Wi-Fi Connector.
3. Un PC connecté au système d'exploitation Windows XP et doté d'un service Internet à haute vitesse ou DSL actif.

**NOTE** : Votre PC doit être allumé quand vous jouez aux jeux utilisant l'USB Connector.
