Lastly, here are a few crucial tips!

**Embark on an Action RPG with Mario and Luigi**

The bros. will need to work together while going back and forth between the real world and the dream world. You’ll have to use items, solve problems, and battle many enemies to proceed through the story.

- **Mario™ and Luigi™ have their own action buttons!**
- **The bros. will need to work together while going back and forth between the real world and the dream world.**
- **You’ll have to use items, solve problems, and battle many enemies to proceed through the story.**

Here are some battle tips for you!

- **Press the action button right before you stomp the enemy and you’ll be able to attack twice!**
- **Watch the enemy’s movements and press the action button to dodge the enemy’s attacks.**

**Adventure Guide**

- **Level Up**
  - You’ll need to make Mario and Luigi stronger in order to win your battles. Try to battle every enemy you encounter to level up your characters.

- **Use Gear and Badges**
  - Just obtaining different gear such as apparel and boots will not activate any special effects. You need to equip your gear from Gear in the Menu. Badges will offer special effects during battles.
  - When you've filled up your badge stocks, make sure you use those effects.

- **Beware of Status Changes**
  - When enemies hurt your character, sometimes you won’t be able to move. Use Refreshing Herbs to remedy your condition!

Look around carefully and try various things…. Zzz…

**If you can’t proceed through the game, there might be some area you’ve missed or certain actions you haven’t tried yet…**

Last but not least, make sure you try out all the features and enjoy the game to the fullest!
**WARNING – 3D FEATURE ONLY FOR CHILDREN 7 AND OVER**

Viewing of 3D images by children 6 and under may cause vision damage. Use the Parental Control feature to restrict the display of 3D images for children 6 and under. See the Parental Controls section in the Nintendo 3DS Operation Manual for more information.

**WARNING – EYESTRAIN AND MOTION SICKNESS**

Playing video games can cause eyestrain after a sustained period of time, and possibly cause if using the 3D feature. Playing video games for extended periods of time may lead to eyestrain in some players. Follow these instructions to help avoid eyestrain:

- Avoid excessive display.
- It is recommended that parents monitor their children for appropriate play.
- Take breaks or rest every half hour when playing.
- Each person is different; so take more frequent and longer breaks if you feel discomfort.
- If your eyes become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stinging, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms, stop playing and see a doctor.

**WARNING – SEIZURES**

Playing video games can also result in motion sickness in some players. Follow these instructions to help avoid eyestrain, dizziness, or nausea:

- If you continue to have any of the above symptoms, stop playing and see a doctor.
- If your eyes become tired or sore while playing, or if you feel dizzy or nauseated, stop and rest for several hours before playing again.
- To reduce the likelihood of a seizure when playing video games:
  - Play in a well-lit room.
  - Take a 10 to 15 minute break every hour.

**WARNING – REPEATED MOTION INJURIES**

Playing video games can make your muscles, joints, or skin hurt. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome or skin irritation:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take breaks or rest every half hour when playing.
- Each person is different; so take more frequent and longer breaks if you feel discomfort.
- If your hands, wrists, or arms become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms or other discomfort during or after play, stop playing and see a doctor.
