Collect stickers!
You don’t get stickers just from removing them from courses—you can also buy stickers at Sticker Shops and create them out of things. Also, enemies will sometimes leave stickers behind when you defeat them. Try smashing clumps of grass and even trees…

You'll get benefits like higher attack strength when you time it right.

Handy COURSE Controls

A
- Jump
B
- Swing hammer
Y
- Paperize

Press a sticker with A

Handy BATTLE Controls

A
- Hold down A to peel sticker
L
- Get hints from Kersti

Press A at the right time!

Press X to use the Battle Spinner
Use this when you’re outnumbered or when your life is low.

Run
Knowing when to retreat is also part of a good battle strategy. Repeatedly press A to increase your odds of getting away.

Attack enemies on the course!
Strike first and the battle will begin with the enemy taking damage.

NEED HELP PLAYING A GAME?

For game-play assistance, we recommend using your favorite Internet search engine to find tips for the game you are playing. Some helpful words to include in the search, along with the game’s title, are: “walk through,” “FAQ,” “codes,” and “tips.”

WARNING - 3D FEATURE ONLY FOR CHILDREN 7 AND OVER

Viewing of 3D images by children 6 and under may cause vision damage. Use the Parental Control feature to restrict the display of 3D images for children 6 and under. See the Parental Controls section in the Nintendo 3DS Operations Manual for more information.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES.

WARNING - SEIZURES

• Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, and this may occur while they are watching TV or playing video games, even if they have never had a seizure before.

• Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch their children play video games. Stop playing and consult a doctor if you or your child has any of the following symptoms:

Convulsions
Eye or muscle twitching
Involuntary movements
Loss of awareness
Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - EYESTRAIN AND MOTION SICKNESS

Playing video games can result in eyestrain after a sustained period of time, and perhaps sooner if using the 3D feature. Playing video games can also result in motion sickness in some players. Follow these instructions to help avoid eyestrain, dizziness, or nausea:

• Avoid excessive play. It is recommended that parents monitor their children for appropriate play.

• Take a 10 to 15 minute break every hour, or every half hour when using the 3D feature, even if you don’t think you need it. Each person is different, so take more frequent and longer breaks if you feel discomfort.

• If your eyes become tired or sore while playing, or if you feel dizzy or nauseated, stop and rest for several hours before playing again.

• If you continue to have any of the above symptoms, stop playing and see a doctor.

WARNING - REPEETITIVE MOTION INJURIES

Playing video games can make your muscles, joints, or skin hurt. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome or skin irritation:

Avoid excessive play. Parents should monitor their children for appropriate play.

• Take a 10 to 15 minute break every hour, even if you don’t think you need it.

• When using the stylus, you do not need to grip it tightly or press it hard against the screen. Doing so may cause fatigue or discomfort.

• If your hands, wrists, or arms become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several hours before playing again.

• If you continue to have any of the above symptoms or other discomfort during or after play, stop playing and see a doctor.
