Health and Safety

Thank you for choosing the Kid Icarus™: Uprising game for the Nintendo 3DS™ system.

Please read this manual carefully before using the software. Please also read your Nintendo 3DS Operations Manual for more details and tips to help you enjoy your playing experience.

Health and Safety Information

⚠️ Important

Before using this software, read all content within the Health and Safety Information application on the HOME Menu.

To access this application, tap the ⚠️ icon on the HOME Menu, then tap Open and read the contents of each section carefully. When you are finished, press HOME to return to the HOME Menu.
**CAUTION - STYLUS USE**

To avoid fatigue and discomfort when using the stylus, do not grip it tightly or press it hard against the screen. Keep your fingers, hand, wrist and arm relaxed. Long, steady, gentle strokes work just as well as many short, hard strokes.

**IMPORTANT**

To help maximize comfort during game play, use the stand included with this product.

**Protecting Your Privacy**

This software allows you to share information, such as your Mii™ character and Mii name, with other users through local communication and online services. Keep the following in mind when sharing personal information through these features.

- To protect your privacy, do not give out personal information such as last name, phone number, birth date, age, school, e-mail, or home address when communicating with others.
Friend codes are a part of a system that allows you to play with people you know. If you exchange friend codes with strangers, there is a risk you could share information with people you do not know or exchange messages that contain offensive language. We therefore recommend that you do not give your friend codes to people you don't know.
Load up the game, and tap the Touch Screen to enter the save-file menu.

To begin a new game, select an empty save file, then input your name, birthday, and Mii™ character. To continue a previously saved game, tap its save file.

Tap a game mode to select it. Tap 🌸 to go to How to Play. Tap 📈 to play with Kid Icarus: Uprising AR Cards (page 12).
How to Play

In this section of the game, Pit and Palutena explain how to play Kid Icarus: Uprising.

For detailed information about this game, please visit the official Kid Icarus: Uprising website at http://kidicarus.nintendo.com.

Sleep Mode

While playing, you can close the Nintendo 3DS system to put it in Sleep Mode and reduce battery consumption. Open the Nintendo 3DS system to leave Sleep Mode.

Note: You cannot enter Sleep Mode while performing wireless communications with other players.
Saving and Erasing Data

Game progress is saved automatically. While saving, the 🔄 icon will appear in the upper-left corner of the top screen.

- Data can be lost due to user action such as repeatedly powering off and on the system, or removing the Game Card or SD Card while saving. Data loss may also be caused by poor connectivity, due to dirt or dust in the system's ports. Please be aware that in these cases data cannot be restored.
Erasing Data

Note: Press \( \text{L} \) on the save-file screen, and then press the button combination that appears on the screen to erase a save file.

Note: Erased data cannot be recovered.

Erasing All Data

To erase all save data, load Kid Icarus: Uprising and then press and hold \( \text{A} + \text{B} + \text{X} + \text{Y} \) after the Nintendo 3DS logo disappears but before the title screen appears.
Beginning a Stage

Move Out!

From the top menu, select Solo and then tap Move Out! After deciding the chapter and Intensity, you will begin the stage.

Fiend's Cauldron

Before you move out, you can add hearts to the Fiend's Cauldron to change the Intensity (difficulty). The higher the Intensity, the more hearts you'll earn and the better the loot you'll receive.

Hearts

You can earn hearts by defeating enemies and converting weapons and weapon gems. Hearts can be used to change the Intensity, buy new weapons, and fuse weapon gems.
Gear
You can equip weapons and ability-granting powers for use during play. Equipped weapons and powers can be tried out in the Practice Range.

Arms Altar
You can buy weapons with hearts or fuse weapons together to create new ones. (Whenever you combine weapons, the originals are lost.) Weapons you don't need can be dismantled, converting them into hearts.

Idol Toss
Place eggs on the plate. Slide down on the Touch Screen and release to send them flying and discover new Idols. You can obtain eggs for this mode by progressing through the game and by spending Play Coins you've collected on your Nintendo 3DS system.

Note: For more information about Play Coins, please see the Nintendo 3DS Operations Manual.
Treasure Hunt

If you satisfy certain conditions in the game, you'll uncover secret treasures!
Health bar
Decreases as Pit takes damage.

Score

Enemy guide
Indicates enemies that are within attack range.

Reticle
Aims the direction of attacks.

Special Attack icons
These fill up over time. When one is full, you can tap it to perform a powerful Special Attack.

*Note:* Only available in Air Battles.
Intensity

The difficulty level is determined by the number of hearts added to the Fiend's Cauldron (page 4). When you fail a stage, hearts spill out of the Fiend's Cauldron and the Intensity decreases.

Hearts acquired
**Land Battles**

**Note:** Some display elements differ from those in Air Battles.

1. **Guide arrow**  
   Head in this direction to progress through the stage.

2. **Item cursor**  
   Indicates items you can acquire.

3. **Power Palette**  
   Tap to use preset powers.

4. **Item**  
   Displayed when you possess an item, such as a grenade. Press to use.
### Basic Controls

<table>
<thead>
<tr>
<th>Move</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Aim reticle</td>
<td>Slide on the Touch Screen</td>
</tr>
<tr>
<td>Attack</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** You can also attack with A, B, Y, and +.  
**Note:** By pressing and holding R, you can move the reticle with O. However, when using this technique on land, the reticle can only be moved up and down when O is moved slowly.
### Other Controls

| Continuous fire | L (hold down) |
| Charged shot    | L (without attacking for a short period, after the reticle changes shape) |
| Melee combo     | L Press repeatedly (when near an enemy) |
| Pause           | START |

**Note:** If you press and hold L + R + START at the same time, the game will reset and you will return to the title screen. However, you cannot reset this way while performing wireless communication with other players.
<table>

<td>While stopped, tap the Touch Screen twice. Hold (keep pressing) on the second tap.</td>
</tr>
<tr>
<td>Switch to first-person view</td>
<td>✗</td>
</tr>
</tbody>
</table>

**Note:** You can also press to cycle through powers and to use them.
About Vehicles

As the game progresses, vehicles will appear in ground-based stages. You can ride them by pressing \(L\) when you get close. You can get out of a vehicle by tapping \(\downarrow\). When riding in a vehicle, touch \(\rightarrow\) to activate its special action. (The action and icon vary by vehicle.)

Circle Pad Pro

If you use the Nintendo 3DS Circle Pad Pro (sold separately), you can use it on the right side to perform the same function of the Circle Pad on the left side of the Nintendo 3DS. If you don't have the Circle Pad Pro, you can still configure the controls in Options (page 15) to move with \(A, B, X\) and \(Y\). Attach the Circle Pad Pro before you start the game, or attach it while the game is paused.

Note: See the Nintendo 3DS Circle Pad Pro Operations Manual for more details about how to use this accessory.
Circle Pad Pro
Troubleshooting

If the system behaves as though the Right Circle Pad is being used even when you aren't touching it, or if the controls don't seem to operate correctly, you will need to calibrate the Right Circle Pad by following the procedure below.

Calibration Procedure

1. Press \[ L, R \] and \[ X \] at the same time from the title screen, or while paused.

2. Follow the instructions on the screen to calibrate the Right Circle Pad.

Note: To calibrate the Circle Pad on the Nintendo 3DS system, use the calibration procedure in System Settings from the HOME Menu. For details, see the Nintendo 3DS Operations Manual. You will not be able to calibrate the Circle Pad when battling opponents in Together modes.
If your health bar is depleted, the bar will disappear and you will enter Crisis mode. If you take too much damage in Crisis mode, you will lose your life and fail the stage. If this happens, you will have the option of restarting from a checkpoint in the stage (Continue) or returning to the Solo menu. If you restart from a checkpoint, you'll have to continue with a lower Intensity, which will decrease the value of the loot you collect.

- While in Crisis mode, grabbing a Drink of the Gods will replenish your entire health bar.
- You will recover from Crisis mode over time.
This software supports online play through an Internet connection. For information about connecting your Nintendo 3DS system to the Internet, refer to the Nintendo 3DS Operations Manual.

**Note:** You can disable online interaction via Parental Controls. For more information, refer to the operations manual.
With wireless broadband Internet access, you can battle with up to five other players.  

**Note:** The more players there are, and the more friends you have join, the better the rewards everyone might receive at the end of a match.  

**Note:** For more information on connecting to the Internet with the Nintendo 3DS system and how to set up friend codes, please read the Nintendo 3DS Operations Manual.

1. Select a room to join, or to host a match, select Create Room then either Light vs. Dark or Free-for-All (page 11).  
2. If hosting the match, select rules and equipment, then select Move Out! to begin the game.  

**Note:** Even if your friend-list Notifications are turned off, selecting With Friends will let your in-game friends see if you are online.
Joining from the Friend List

You can also join a game from the friend list in the HOME Menu. If one of your friends is available to join, a symbol will appear on the friend list icon. Select a yellow friend card marked OK to Join, then tap Join Game to load the software and begin the battle.

**Note:** A Kid Icarus: Uprising Game Card must be in the Nintendo 3DS Game Card slot.

**Note:** Depending on your opponent's situation, there are cases where you may not be able to connect.

**Note:** If a friend is currently in another battle, your request will be on standby until it ends, and then you will be able to participate in the next game.

With Anyone

You can also play with people who aren't on your friend list. Once you select either Light vs. Dark or Free-for-All, then decide on equipment, select Move Out! to begin the game.
Use the Parental Controls settings on the Nintendo 3DS system to restrict Internet communications with other users.

**Note:** Read the Nintendo 3DS Operations Manual for more information on setting up Parental Controls.
This software supports multiplayer games via wireless communication. Each player must have a copy of the software. Local-wireless play supports a maximum of six players.

You Will Need:
- One Nintendo 3DS system per player (six maximum)
- One copy of the software per player (six maximum)

Connection Procedures

1. Select a match to join, or select Create Room to host a match.
2. If hosting the match, select rules and equipment, then select Move Out! to begin the game.
There are two ways to battle.

**Light vs. Dark**

A 3-vs.-3 team battle. If you do not have six players, the remaining spots will be filled with computer-controlled bots.

1. When you or one of your teammates is defeated, your team's power bar will decrease by the value of the weapon used by the fallen player.
2. Once a team's power bar is totally depleted, the last player to be taken out will turn into a powerful angel.
3. The side that takes out the opposing team's angel first wins!

**Free-for-All**

Every player is your enemy! Take out as many opponents as you can before time runs out. The player with the highest score wins!
AR Cards/Idols

To view and battle Kid Icarus: Uprising AR Cards, tap the AR icon in the top menu or the AR icon in the Vault.

Note: Kid Icarus: Uprising AR Cards cannot be used outside of this game.

How to Play

1. If you view an AR Card through the outer camera, an Idol will pop out! Up to three Idols can be displayed at a time.

2. If you line up two AR Cards along their bottom edges and press or tap Fight!, a battle will begin. You can only perform one-on-one battles between AR Cards.

Note: You can take photos of Idols by pressing L or R. Photos will be saved to the SD Memory Card and can be viewed in Nintendo 3DS Camera mode in the HOME Menu.
**What Are Idols?**

Idols are 3D representations of characters, locations, items, and weapons in Kid Icarus: Uprising. You can acquire Idols from AR Cards or by playing through the game. Idols are stored in the Vault.

**Using AR Cards**

- Place AR Cards on a flat, well-lit surface. Adjust the angle and distance of the camera by moving the Nintendo 3DS system.
- Be sure the camera can view the entire AR Card. If a portion of the AR Card is hidden, it might not be properly recognized.
- AR Cards might be difficult to recognize if they are reflecting light, so please view cards from angles and locations in which there is little or no glare.
- If the outer camera of the Nintendo 3DS system is dirty, please clean it with a soft cloth.
- The Nintendo 3DS system may not properly recognize AR Cards that are folded, damaged, or dirty. Please handle AR Cards with care.
When playing AR Card games, you may have to move around the area while holding the Nintendo 3DS system. Make sure you have enough room, and hold the system firmly with both hands while playing.
This software supports the retrieval of game-related notices and weapon gems via an Internet connection.

### Setup

Before you can use SpotPass™, the following steps are required. For more information, refer to the Nintendo 3DS Operations Manual.

- Accept the Nintendo 3DS Service User Agreement
- Set up an Internet connection

**Note:** An SD Card is required to use SpotPass.

### Activation Procedure

1. Select Other in the Options menu (page 15), and then tap On next to SpotPass.

2. Tap Yes at the confirmation screen.
You can check notices you've received in Notifications 📣 in the HOME Menu. Weapon gems will be sent to your gem collection (see Trading Weapon Gems, page 13).

**Note:** You can set up each save file for SpotPass.

**Note:** If any of the save files has SpotPass set to On, notifications will be received by the Nintendo 3DS system.

### Deactivating SpotPass

To deactivate SpotPass, select Other in Options, then tap Off next to SpotPass.

If you want to only deactivate notifications, select Kid Icarus: Uprising in Notifications 📣 in the HOME Menu and then tap Opt out of notifications for this title.

To resume notifications, set the SpotPass settings within the game to Off and then back to On.
This software supports trading gems with other players via StreetPass™ (local wireless communication).

1. You can make weapon gems from weapons. *(When you make gems, the weapon used will not be lost.)*

2. Gems traded in StreetPass can be collected in the Gem Case.

3. You can fuse gems in Fuse Gems mode, changing them into new weapons. You can also select gems in View Gems and press A to turn them into weapons. *(When you create weapons by either method, hearts will be consumed and the original gems will be lost.)* Unwanted gems can be changed into hearts.

To communicate using this feature, all players must activate StreetPass for this software.
Deactivating StreetPass

To deactivate StreetPass, open the System Settings and select Data Management, then StreetPass Management. Tap the icon for Kid Icarus: Uprising, then select Deactivate StreetPass.

Note: You can disable StreetPass functionality via Parental Controls. For more information, refer to the Nintendo 3DS Operations Manual.
View extras such as Idols and battle records. You can also listen to music from the game.

Adjust settings for features such as controls, sounds, and subtitles. You can also change the personal information you entered at the beginning of the game.
