  - Observe and follow all regulations and rules regarding use of wireless devices in locations such as airports, hospitals, and on board aircraft. Operation in those locations may interfere with or cause malfunctions of equipment, with resulting injuries to persons or damage to property.

⚠️ WARNING - Battery Leakage
- The Nintendo DS contains a rechargeable lithium ion battery pack. Leakage of ingredients contained within the battery pack, or the combustion products of the ingredients, can cause personal injury as well as damage to your Nintendo DS.
- If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water. If liquid leaking from a battery pack comes into contact with your eyes, immediately flush thoroughly with water and see a doctor.
- To avoid battery leakage:
  - Do not expose battery to excessive physical shock, vibration, or liquids.

The Town Gate

Talk to the gatekeepers to find lost items and change the flag, not to mention visit other towns!

If you talk to Booker, the gatekeeper on the left...

Booker will let you know if you have any special visitors. If you have guests visiting via local wireless or Nintendo WFC, Booker will let you know who the last person was to enter your gate.

If you talk to Copper, the gatekeeper on the right...

Select this to visit other towns, either wirelessly from DS to DS or using Nintendo Wi-Fi Connection.

I wanna go out!

See pages 34-35 for more on going out.

32

Something lost?

Check out the town's lost-and-found. Up to 20 items can be stored here. As new ones come in, the old ones are tossed out. You can claim anything that's here!

I wanna go out!

Have friends from other towns come visit you in yours.

33

Change flag.

Replace the design on the town's flag with one that you created.

Use this!

Toss out the flag's current design and swap it for one that you created.

Swap it!

Swap the existing design for one that you created.

Friend code!

When playing with a friend with whom you cannot play wirelessly, you will each need a friend code. Speak to Copper, the gatekeeper on the right, and choose "Friend code!" and "Gimme one" to be issued a friend code. Please see pages 36-37 for more on how to use the Nintendo Wi-Fi Connection.
Traveling the World!
Venture out to a friend’s town and meet new friends!

How to go out
Have the player whose town you’re visiting open his gate for you (by telling his gatekeeper that he wants to “Invite guests!”). Then tell your gatekeeper, “I wanna go out!” and select the same method as the player hosting.

There are 2 ways to go out.
- **DS to DS** Using local wireless, travel to another Nintendo DS (page 35).
- **Nintendo WFC** Visit friends using the Nintendo Wi-Fi Connection (pages 36-37). In order to use Nintendo WFC, you must first enter your Wi-Fi settings (see page 43, and the Nintendo Wi-Fi Connection instruction booklet).

- Up to four people can interact at a time.
- The Nintendo Wi-Fi Connection can only work when the original DS hardware and DS Game Card are used as a set. (Please see the Nintendo Wi-Fi Connection instruction booklet for more on user information.)

Talking to Copper and choose "I wanna go out," then choose "DS to DS" (see page 33).

Opening the gate
When you want to go to a town outside of the ones that Copper mentions...

When there are multiple towns open for you to visit, the town that Copper mentions might not be the one that you want to visit. At times like this, choose "Another town" and choose the town that you want to visit.

If you are successful in communicating, the gate will open and you will be able to go out.

Registering Friends when Playing via Local Wireless
If you choose "Nintendo WFC" when playing DS to DS, you can register the players you are playing with to your friend roster. You’ll need these addresses when playing via Nintendo WFC (see page 36).

- You can have up to 32 friends on your friend roster.
- If a player moves, her address will change and you will have to register her again to your friend roster.
1. Get your own code by touching your friend roster.
   - If you do not have a code, "??????????" will be displayed. Talk to Copper and choose "Friend Code" and "Yes."
   - You must connect to Nintendo WFC at least one time to be given a friend code. See page 43, and the Nintendo Wi-Fi Connection instruction booklet.

2. Talk to Copper
   - Once the name has been registered, talk to Copper and choose, “I wanna go out” and “Nintendo WFC.”
   - You will get the option to “Check your connection settings…
     - Choose "No" if you don’t need to set up a new connection file. If you choose "Yes," then the game will automatically save and switch to the Nintendo WFC set-up screen. You can then enter or update your connection settings. (Check the Nintendo Wi-Fi Connection instruction booklet for details.)

3. Choose the name of the player whose town you want to visit
   - The names of players with open gates will be displayed, so pick the person whose town you want to visit.

4. Open the gate
   - If you are successful at communicating, the gate will open and you will be able to go out.

The Terms of Use Agreement which governs Nintendo Wi-Fi Connection game play is available in the Nintendo Wi-Fi Connection instruction booklet or online at www.nintendowifi.com/terms.
When you want to go home

You can return to your town by talking to Copper in the town you are visiting and selecting “I wanna go home.” If the host presses START and selects, “Party's Over!”, then all players will be sent home.

- When communication ends, the game will save automatically, so do not turn the power off.
- You can take items that you got in other towns (fruit, fish, bugs, etc.) to your own town.
- When in another town, you cannot donate items to the museum or create constellations or designs.

Multiplayer Q&A

Q: I’m worried that someone might come in through my gate while it’s open.

A: To play Animal Crossing: Wild World using Nintendo WFC, each player must have the other’s friend code (see page 36) in order to visit. This prevents people you don’t know from entering your town. Rest assured!

However, if you are talking to another player or if you have a message on the menu window open, a friend who’s trying to visit you might not be able to join you. A message will appear when this happens, so follow the instructions.

Q: I was able to connect through Nintendo WFC before, but...

A: One of the reasons that you may not be able to connect to Nintendo WFC is that your user information may have changed. User information can change if:

1) You have moved to another DS Game Card.
2) Your user information has been deleted from the Nintendo WFC setting options.
3) Your Animal Crossing: Wild World Game Card was inserted in another DS and played.

Doing any of the above will cause your user information to change, so you’ll have to ask all of your friends on your friend roster to re-register your friend code (see page 36).
Tag Mode
With Tag Mode, you can interact with other people playing Animal Crossing: Wild World.

What is Tag Mode?
If two players are in Tag Mode, their Animal Crossing: Wild World games can communicate automatically when their paths cross.

Please check pages 42-43 for information on how to set up wireless play.

Through Tag Mode...
You might exchange constellations...
You might send and receive bottle mail...
Residents might move in or out of your town.

You don’t know who will get your bottle mail, so protect your privacy and do not give out personal information such as last name, phone number, birth date, age, e-mail or home address when communicating with others.

How to Begin Tag Mode
1. First, go to Tom Nook’s shop and buy a note in a bottle, write a letter, and release it into a river or on the beach.
2. Save, return to the title screen, and select “Tag Mode” (see page 5).
3. Tag Mode will start.

4. Once you’ve successfully met another player, start a new game to see if you have received something.
Establishing the DS Wireless Link (DS Wireless Play)

This section explains how to establish the link for local wireless play.

**What You Will Need:**
- Nintendo DS systems - One for each player
- Animal Crossing: Wild World DS Game Cards - One for each player

**Steps**
1. Make sure that all DS systems are turned off, then insert a Animal Crossing: Wild World DS Game Card into each system.
2. Turn on the power of all the systems. The DS menu screen will appear.
4. Now follow the instructions on page 34.

During wireless game play, an icon will appear on either the upper or lower displays showing the signal strength of the wireless signal. The icon has four modes depending on the signal strength, as shown below.

<table>
<thead>
<tr>
<th>No. of Bars</th>
<th>Strength</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>Weaker</td>
</tr>
<tr>
<td>1</td>
<td>Moderate</td>
</tr>
<tr>
<td>2</td>
<td>Stronger</td>
</tr>
<tr>
<td>3</td>
<td>Stronger</td>
</tr>
</tbody>
</table>

- Begin with the distance between systems at about 30 feet or less and move closer or farther apart as desired, keeping the signal strength at two or more bars for best results.
- Keep the maximum distance between systems at 65 feet or less.
- The systems should face each other as directly as possible.
- Avoid having people or other obstructions between the DS systems.
- Avoid interference from other devices. If communication seems to be affected by other devices (wireless LAN, microwave ovens, cordless devices, computers), move to another location or turn off the interfering device.

**Nintendo Wi-Fi Connection**

The Nintendo Wi-Fi Connection allows multiple Animal Crossing: Wild World owners to play together over the internet—even when separated by long distances.

- To play Nintendo DS games over the internet, you must first set up the Nintendo Wi-Fi Connection (Nintendo WFC) on your Nintendo DS system. Please see the separate Nintendo Wi-Fi Connection instruction booklet included with this game for directions on setting up your Nintendo DS.
- To complete Nintendo WFC setup, you will also need access to a PC that has a wireless network device installed (such as a wireless router) and an active broadband or DSL internet account.
- If you do not have a wireless network device installed on your PC, you can order a Nintendo Wi-Fi USB Connector directly from Nintendo. See the separate Nintendo WFC instruction booklet for more information.
- Nintendo Wi-Fi Connection gameplay uses more battery power than other gameplay. You may prefer to use the AC Adapter to prevent running out of power when using the Nintendo Wi-Fi Connection.
- You can also play Nintendo WFC compatible games at selected internet hotspots without additional setup.

**For additional information on the Nintendo WFC, setting up your Nintendo DS, or a list of available internet hotspots, visit www.nintendowifi.com (USA, Canada and Latin America) or call 1-800-895-1672 (USA/Canada only).**
