Seek the water of life.

Long ago, miasma swallowed the world. Its very touch was fatal, and it claimed many lives. But we have since discovered a way to hold it at bay. Crystals protect us from miasma. Smaller crystals now guard the villages of the world, while greater ones guard the cities. We all live our lives within the embrace of the crystals' blessing.

The power of the crystals is not limitless, however; it gradually diminishes over time. We must rekindle the crystals' radiance each year by purifying them with myrrh. In turn, they protect us from the miasma for another year.

But myrrh cannot be found just anywhere. We must seek it in the dank depths of dungeons, across forbidding mountains, even beyond the sea. This task falls to groups of young men and women sent off each year by every town the world over. It is their duty to collect myrrh and bring it home. They are known as the crystal caravans.

This is the tale of one such caravan and its adventures.

Prologue

Your Journey's Goal

Join a crystal caravan to seek out myrrh trees and collect their myrrh. Once you've filled your chalice, return home. By purifying the crystal with myrrh, you will renew its power to protect the village from miasma for another year.

Many dangers and mysteries lie along your journey. Your task is not an easy one, but you are not alone. Join forces with your fellow caravanners and make your mark together in the Crystal Chronicles.

The Crystal Chalice

Collect and carry myrrh in the crystal chalice. The crystal shard attached to it protects the caravan from miasma.
Learn these basic controls before setting out on your journey.

Controller Configuration
For single-player mode, connect a Controller to Controller Socket 1. For more details, see p. 20. The Control Stick and the +Control Pad share the same functions.

Game Boy Advance Configuration
For multiplayer mode, a Game Boy Advance is connected with a Game Boy Advance cable and used in place of the Nintendo GameCube Controller. You cannot use the Controller to play multiplayer mode. For more details, see p. 26. Details on connecting the Nintendo GameCube Game Boy Advance cables can be found on p. 42.

In multiplayer mode, the +Control Pad replaces the Control Stick.

Load Game
Select this option to resume playing a previously saved game. Choose either single-player mode or multiplayer mode, and then select the save file you want to load. Any save file can be used for either mode.

Select Gameplay Mode
Final Fantasy Crystal Chronicles can be played in single-player mode for one player, or multiplayer mode for up to four players. Any character can be played in either mode.

Menu for the Whole Caravan
At the world map, press the B Button to open the world map menu. Use the Control Stick to cycle through the menu options, and press the A Button to confirm your selections.

Bring a Friend: Load data for a guest player
Load data from another Memory Card so a friend’s character can join your caravan (p. 35).
**Game Progression**

Basic steps to advance the game are outlined below. They generally apply to both single-player mode and multiplayer mode.

**The Basics**

Players are members of a crystal caravan that seeks out myrrh. Your adventure will unfold in the following manner:

1. **Form a Party**
   - From the world map menu, select “Set Out,” then select a character or create a new one. You can have up to eight characters in a caravan.

2. ** Traverse the World Map**
   - Use the Control Stick to move your caravan across the world map. When you reach your destination, press the A Button to enter.

3. **Enter Dungeons**
   - Once you enter a dungeon, the world map is replaced with the field map. You are given a chance to set up your command list (pp. 16 and 23) before advancing further.

4. **Explore Dungeons**
   - Defeat monsters you encounter and solve puzzles hindering your path. Collect treasure from monsters and treasure chests.

5. **Challenge Boss Monsters**
   - Deep within dungeons, formidable boss monsters await. Summon every power at your disposal to defeat them. Once a battle begins, you cannot flee.

6. **Obtain Myrrh**
   - After defeating a boss monster, you can collect a drop of myrrh. Each drop fills a third of your chalice. Once you collect myrrh from a myrrh tree, it takes several years for the tree to replenish its supply.

7. **Receive Mail**
   - A moogle will come to deliver mail while you rest after battle. You can send replies as well (p. 31). No mail will come if the myrrh tree there is dry.

8. **Earn Bonus Points**
   - Items and artifacts (p. 33) are divided among the members of the caravan. In multiplayer mode, the player who earns the most bonus points gets first choice. The number of points you accumulate depends on how well you fulfill the bonus condition displayed on your GBA screen.

Return to the World Map

Return to the world map to continue your journey. Be sure to purchase new equipment from blacksmiths in town now and then. You never know what you’ll run into on your journey.
Single-Player Mode
In single-player mode, Mog joins you on your travels.

Single-Player Mode Features
Connect a Nintendo GameCube Controller to Controller Socket 1 to play single-player mode. Major features include the following:

1. **Take Mog with You**
   When you explore dungeons, Mog accompanies you and helps out with things like carrying the chalice (p. 19).

2. **Check Your Radar**
   You can view a radar screen on the GBA by connecting a GBA to Controller Socket 2.

3. **Fuse Spells on the Command List**
   You can fuse spells together on the command list to create new ones (p. 16).

### Game Screens
Here is a guide to the three types of screens found in the game:

#### The World Map
- **1. Year**
  The number of years that have passed since your journey began. The current year ends once you fill your chalice and return to your village.
- **2. Region Name**
  The region through which your caravan is currently travelling.
- **3. Caravan**
  Your caravan. Move it with the Control Stick.
- **4. Destination**
  Displays the names of towns, villages, and dungeons when you approach them.
- **5. The Crystal Chalice**
  A cup for carrying myrrh. It shows how much myrrh you’ve collected as well as the current element of the chalice’s crystal (p. 28).

#### Radar
- **1. Character Name and Health**
  Your character’s name and current HP are displayed here. Monsters’ attacks will drain your HP, but the Cure spell and various items can replenish it.
- **2. Action Commands**
  Press the A Button to perform the action shown here. Cycle through the command list with the L and R Buttons.
- **3. Secondary Commands**
  Press the B Button to perform actions that vary with the circumstances, like “Examine” and “Carry.”
- **4. Crystal’s Aura**
  The chalice’s crystal generates an aura that protects you from miasma. If you step outside its bounds, your HP will gradually drain away. You can gradually recover HP by staying within the aura.
- **5. Targeting Ring**
  Press and hold the A Button to make the targeting ring appear. Move the ring with the Control Stick, then release the A Button to unleash an attack or spell upon your target.
- **6. Position Marker**
  Colored markers show each character’s current position.

You can view a radar screen on the GBA by connecting a GBA to Controller Socket 2. There are four types of radars (p. 23). The color of Mog’s fur determines which one is displayed at any given time.
The Menu System
While inside towns or dungeons, press the Y Button to open the main menu. It contains nine submenus. Once within a submenu, you can cycle through the others by pressing the L and R Buttons. Press the B Button to return to the main menu.

Attributes
- Strength: Affects the power of your physical attacks.
- Defense: Affects your resistance to damage.
- Magic: Affects the strength of your spells.
- Memories: Reflects the number of entries in your diary.

The Command List
Assign Commands and Use Spell Fusion
You can assign items and magicite to slots on your command list. Use the Control Stick to select a slot and press the A Button to display your inventory. Select the desired item, then press the A Button to confirm your selection.

Spell Fusion
Some magicite can be fused together or with weapons to create entirely new spells or attacks. Simply place the magicite or weapons into adjacent slots on the command list. To split a fused spell into its original components, select the spell, then select the “Split” option that appears. To fuse them together again, select a component, then select the “Fuse” option that appears along with your inventory. Some magicite combinations require three stones instead of two. Results also vary with the order in which the stones appear on the command list.

Items Assigned Automatically
If you have empty command slots and pick up magicite or phoenix down, it is automatically assigned to those command slots. This occurs in both single-player mode and multiplayer mode.

Single-Player Mode

Items
Use Items
Select “Drop” to drop an item onto the ground. Select “Destroy” to destroy an item. You cannot select items that are currently assigned to command slots. Also, you cannot drop any items while carrying the chalice.

Some equipment can only be used by members of a particular tribe. Blacksmiths can craft weapons or armor for you if you have the required materials and designs (p. 27). You cannot change your equipment while carrying the chalice.

Artifacts are special items that enhance your attributes or abilities. This menu lists the artifacts you own. It does not include artifacts picked up in the current dungeon. Select an artifact with the Control Stick to view its effects.

### Letters

**Read Letters and Send Replies**

Here you can read letters that your family sends you. Select a letter with the Control Stick and press the A Button to open it. You can send one reply for each letter you receive (p. 31).

### Mog, Your Travel Companion

Playing Multiplayer Mode

Coordination is crucial with several people playing at once. Here are some key ways that multiplayer mode differs from single-player mode:

1. Use the GBA as a Controller
   In multiplayer mode, you must use a GBA in place of a Nintendo GameCube Controller. Connect each GBA with a Nintendo GameCube Game Boy Advance cable. For details, please see “Connecting the Nintendo GameCube Game Boy Advance Cables” on p. 42.
   If nothing appears on the GBA screen, the GBA may not be properly connected. Please make sure it is connected as described on p. 42.

2. Up to 4 Players
   Up to four players can join a game by connecting a GBA with a Nintendo GameCube Game Boy Advance cable. A single player can also play multiplayer mode alone.

3. Combine Attacks and Create Magic Blasts
   If players cast spells or unleash focus attacks with the right timing, they can create powerful attacks like magic blasts.

4. Personal Menus
   Your character’s menus and attributes are shown on your GBA screen, so only you can see them.
**Game Screens**

A guide to the three types of screens found in the game is shown below. They basically work the same way that they do in single-player mode.

**The World Map**

This map shows the current region. For more details, see p. 14. You can only move the caravan and perform other actions on the world map through the GBA connected to Controller Socket 1.

**GBA Screen**

Please see “The Menu System” (p. 23).

Players can unleash a magic blast by stacking their targeting rings and casting a spell together. You can either cast spells of the same type for more power, or you can mix different spells to create entirely new ones.

Enchant Your Focus Attacks

You can unleash magical attacks by combining focus attacks with spells. One player charges a spell while another charges a focus attack. Stack your targeting rings and have the spellcaster release first.

Buying and Selling Items

Speak to a shopkeeper to open the shop menu. Select “Buy” or “Sell,” then press the A Button to open the corresponding menu. Select the item you want to buy or sell with the +Control Pad and press the A Button to confirm. Adjust the quantity you want to buy or sell with the +Control Pad.

Crafting Items

Blacksmiths can craft pieces of equipment for you, but you must provide them with the proper design, materials, and payment. Speak to a blacksmith to view the designs in your possession. Designs highlighted in blue can be crafted at the current shop. Select the design you would like to use and press the A Button. A screen confirming your choice will appear. Select “Craft” and press the A Button to proceed. Different blacksmiths handle different designs.

Visiting Shops in Multiplayer Mode

When you speak to shopkeepers in multiplayer mode, the shop menu will appear on your GBA. Aside from this, shopping and crafting are handled the same way as in single-player mode.
Adventuring Basics

Here are six important things every traveller should know:

Elements of the Crystal
Crystals can possess one of four elements: fire, water, wind, or earth. The element of your chalice’s crystal affects the entire caravan. You cannot pass through certain places without the correct element.

Changing Your Element at Hot Spots
You can change your crystal’s element at hot spots, which are found inside dungeons. When you place the chalice upon a hot spot, the crystal gleams, and its element and color change. Each element grants the entire caravan a certain resistance.

Elements and Their Effects

<table>
<thead>
<tr>
<th>Element</th>

</thead>
<tbody>
<tr>

</tr>
<tr>

<td>Grants resistance to cold.</td>
</tr>
<tr>
<td>Wind</td>
<td>Grants resistance to lightning.</td>
</tr>
<tr>
<td>Earth</td>
<td>Grants resistance to poison and petrification.</td>
</tr>
</tbody>
</table>

Crossing Miasma Streams
Miasma streams divide the world into sections, and each stream possesses a certain element. To cross each stream, you must make sure your crystal’s element matches that of the stream. The stream repels any who carry a different element.

Status Ailments
Some enemy attacks inflict status effects. All ailments except death can be cured with the spell Clear. Rotate the Control Stick or +Control Pad rapidly to shorten their duration.

- **Burning**: Fire engulfs you, inflicting damage and lowering your defense.
- **Freezing**: You are encased in ice and cannot move.
- **Shock**: Electric shock immobilizes you.
- **Slowness**: Your movement grows sluggish.
- **Haste**: Your movement quickens.
- **Paralysis**: Time stops, immobilizing you.
- **Poison**: Your attributes are temporarily cut in half.
- **Curse**: You turn to stone and cannot move.
- **Spectral Fright**: You lose all HP. You can press the A Button to wave to your friends.
- **Death**: This occurs when you lose all HP. You can press the A Button to wave to your friends.

Game Over
The game ends when all members of the caravan are defeated in battle. Select "Continue" to resume the game from the area where you were defeated.
Puzzles and Special Objects
As you explore dungeons, you will encounter many puzzles that you must solve in order to proceed. Sometimes you’ll find objects that prove useful in battle.

Activate Objects with Spell Fusion
Sometimes you must cast a certain spell on an object in order to proceed. Try casting fused spells if you come to a dead end.

Spell Fusion Examples
Gravity: Fire and Thunder, Fire and Blizzard, Blizzard and Thunder.
Holy: Fire and Life, Blizzard and Life, Thunder and Life.

Objects Commonly Found in Dungeons
- **Keys**
  - Place keys on pedestals.
  - They often appear after you defeat a monster.

- **Treasure Chests**
  - Bash treasure chests open to find items inside.

- **Pedestals**
  - These open gates. Place keys upon pedestals to open new paths.

- **Switches**
  - Activate switches by placing heavy objects upon them.

- **Oil Urns**
  - Throw oil urns to break them open and spread oil over the ground. Then cast Fire to set it ablaze.

- **Water Urns**
  - Throw water urns to break them open and spread water over the ground. It amplifies the effects of Blizzard and Thunder.

- **Hot Spots**
  - Change your crystal’s element here. You can also use hot spots to teleport out of the dungeon.

Letters
Weary adventurers look forward to letters from home, especially after fighting long battles. Here are details on receiving letters and sending replies:

Receiving Letters and Sending Replies

1. **Moogle Mail Delivery**
   - After you defeat a boss, a moogle will come and deliver the mail. The moogle will only come if you successfully collect a drop of myrrh.

2. **Reading Letters**
   - You should read letters as soon as you receive them. They sometimes include items.

3. **Sending Replies**
   - Reply to the person who sent you a letter. Select from the available replies with the Control Stick, then press the A Button to confirm your selection. You can send an item or money along with your reply.

Letters are generally handled the same way in multiplayer mode.

Moogles
These little creatures first appeared long ago. They understand our language, and some deliver mail. Miasma does not seem to harm them at all. They are found in a multitude of habitats and often burrow nests into the ground.
**Families and Professions**

Each family has its own family trade. Depending on your family’s specialty and your relationship with them, they might give you a deal on items or grow certain foods for you. Send some seeds home in the mail, and your family will plant them to grow crops.

**Family Trades**

**Features of Artifacts**

**Artifacts**

Artifacts are unique objects you can obtain from monsters and treasure chests. Artifacts have different properties than regular items.

**Various Effects**

Some artifacts enhance your attributes, and some increase your HP. Many artifacts are hidden throughout the world.

**Artifacts You Find**

Artifacts you pick up inside dungeons grant their effects immediately. However, they disappear once you leave the dungeon. They remain in your possession until you defeat the boss of the dungeon.

**Artifacts You Keep**

Artifacts are distributed among caravan members after a dungeon’s boss is defeated. Each player can pick one artifact to keep. In multiplayer mode, the player with the most bonus points gets first choice.

**Bonus Points**

Your current bonus condition appears on the GBA in the lower left corner. Follow the instructions to gain more bonus points. This is especially important in multiplayer mode!
Blazin’ Caravans
Blazin’ Caravans is a minigame for multiplayer mode.

Multiplayer Mode Only
A minigame called “Blazin’ Caravans” is available once you fulfill certain requirements. You can only play it in multiplayer mode.

Playing the Minigame
After fulfilling the requirements, talk to a certain character and select “Let me play a minigame.” Once the caravan selection screen appears on your Game Boy Advance, minigame data transfer is complete. Even if you disconnect the Nintendo GameCube Game Boy Advance cable, you can race alone against the computer.

Once a race ends, select “Resume Race” to race again or “Quit Race” to return to your adventure. If the cable is removed, you must turn the Game Boy Advance off and then on again in order to exit the minigame.

Your race results will be lost if the Game Boy Advance system is turned off.

Sleep Mode
If you disconnect the Game Boy Advance from the GameCube, you can activate sleep mode by pressing START and selecting the “Sleep Mode” option from the menu. Your race results will be lost if you turn the Game Boy Advance off, so use sleep mode if you just want to take a break from the minigame.

Exiting Sleep Mode
To exit sleep mode and return to the minigame, press the L and R Buttons and SELECT simultaneously.

Inviting a Guest Character
First, load your own data from the Memory Card in Slot A, and insert your friend’s Memory Card into Slot B. Select “Bring a Friend” from the world map menu, and two menus will appear. To invite a guest, select “Transfer Character” and then select the character you want to transfer. At least one host character from the Memory Card in Slot A must go along.

Guest Restrictions
1. Guest characters never receive letters.
2. When returned to their original game data, guest characters take only artifacts with them.

Returning a Guest Character
To return a friend’s character to his original caravan, you must first save the game and turn off the Nintendo GameCube. Then swap the positions of the Memory Cards. In other words, insert the guest character’s original Memory Card into Slot A, and insert your own Memory Card into Slot B. Next, load his original game data. Select “Bring a Friend” and then “Transfer Character,” and choose the guest character you would like to return.

Deleting a Character
You can delete characters by selecting “Delete Character.” By selecting a character that is currently abroad, you can cancel his “abroad” status and revert his data to the condition it was in before it was transferred. This is useful if that character’s guest data is lost. Be aware that once you cancel a character’s “abroad” status, the character’s guest data can never be returned to its original Memory Card.
