WHAT IS ANIMAL CROSSING: HAPPY HOME DESIGNER?

In *Animal Crossing: Happy Home Designer*, delight your animal friends with unlimited creativity and build dream homes for all!

Isabelle works at the town hall. You'll work with her to improve the town plaza with all sorts of projects, such as schools, shops and restaurants!

Digby is one of your colleagues at Nook's Homes.

Lyle works at the Happy Home Academy. He's a little clumsy but has a big heart!

MEET THE TEAM!

Tom Nook owns real estate agency Nook's Homes, and he's dedicated to developing homes and town facilities. The work's piling up, and he needs plenty of help - so he's employed you!

Lottie is your colleague and mentor. She'll show you the ropes at Nook's Homes and get you started as a home designer.

Create dream homes to suit any animal! Remember, you're in charge!

You can design the outside too!

YOUR ONLY LIMITATION IS YOUR IMAGINATION!

INTRODUCING

Wii U™

Animal Crossing: amiibo Festival is a brand new way to play with your favourite Animal Crossing characters on Wii U. Your amiibo figures are front and centre as you race around a dynamic board game town where the seasons change, and you'll get to use them with fun content. The goal? Make your villager the happiest in town and relax with your friends!

If you make a house in *Happy Home Designer*, you can save it to an amiibo card. If you use it with you'll see that house on the board!
