Take on the role of mayor or resident as you seek to construct a town based on your own imagination. Build and maintain friendships with your neighbours, and use your town's resources to make it as attractive a place as possible to live. Never has town life been as much fun as in Animal Crossing: New Leaf!

- ◆ Only the first player to register a game on the Nintendo 3DS system can take on the role of mayor. All subsequent players (players two to four) can only assume the role of town resident.

Animal Crossing: New Leaf uses your Nintendo 3DS system's internal calendar and clock to create a town which follows real life's current day and season! Manually adjusting the time and date settings may leave your town rife with weeds, cause your crop of turnips (p. 9) to spoil and also decrease the overall value of your town. Bear this in mind when playing through the game!

Information for

Parents – Mr. Resetti

To avoid losing progress, it is essential to save before ending the game or switching off the Nintendo 3DS. The first time players quit without saving, Mr. Resetti will give them a gentle warning about the importance of saving. He will not appear again unless the player chooses to set up the Reset Surveillance Center (when the option becomes available).

Parents should be aware that Mr. Resetti's personality and tone of voice, while intentionally humorous, are authoritative and may be disturbing to young children. Those wishing to avoid meeting Mr. Resetti can simply choose not to set up the Reset Surveillance Center.

Playing with Friends Around the World (Internet)

The software supports Nintendo Network™.

Some of the features that make use of the Nintendo Network are mentioned on this page and on page 13.

About Nintendo Network

Nintendo Network is an online service which allows you to play with other players all over the world, download new software and add-on content, trade videos, send messages and much more!

When connected to the internet, you can play with players around the world. Visit their towns and have them come visit yours. You can also go to the island together and see each other's dreams using the Dream Suite.

- ◆ It's possible to register another player as a best friend when visiting through the internet.

- ◆ To protect your privacy do not give out personal information, such as last name, phone number, birth date, age, school, e-mail or home address, when communicating with others.
- ◆ Friend codes are a part of a system that allows you to play with people you know. If you exchange friend codes with strangers, there is a risk you could share information with people you do not know or exchange messages that contain offensive language. We therefore recommend that you do not give your friend codes to people you don't know.
- ◆ Refer to your Operations Manual for information about connecting your system to the internet.

Comings and Goings

Talk to the porter at the station (p. 9) and select either VISIT ANOTHER TOWN or INVITE GUESTS IN.

Sharing Content

If other players visit your town they will be able to see any custom designs you have displayed in your house, on your clothing, on the town flag etc. They will also be able to see information you have added to your Town Pass Card, your Mii character as well as notices left on the bulletin board. Much of this content is also visible to other players if they view your dream in the Dream Suite (p. 11) or when visiting the Island together (p. 12). Other players will also be able to read the letters or chat messages you may have sent them whilst

visiting their town or when meeting them on the island. Please be careful not to share any content that might offend or upset other players.
