Characters will learn new special abilities, known as Arts, as their levels increase. To use an Art, select one with  and then press .

Special Effects

Some Arts have additional special effects when executed under certain conditions, such as character position and timing.

For example, a special effect might increase an Art's damage if executed from the side, or it may add a debuff  20 beside the Art's original effect.

Cooldown

Arts require a cooldown after each use. Once a cooldown is complete, the icon will flash to indicate that it is available to use again.

- ◆ Cooldown time varies by Art.

➤ Secondary Cooldown

After the initial cooldown is complete and the Art can be used again, a green light will start circling the icon. If you wait until the green light is fully charged before using the Art again, it will gain even more effects, such as increasing its damage further.

◆ Refer to the Arts section [23](#) for more information about Arts.

Arts and Weapons

All Arts are executed with either a melee or a ranged weapon. Cooldown for all Arts progresses when attacking with either type of weapon, but secondary cooldowns only progress when using a corresponding weapon type.

You and your party members will call out encouragements to each other during battle when certain conditions are met. If a Soul Voice succeeds, it will have various positive effects aside from recovering HP.

◆ Refer to the Soul Voice section [→ 24](#) for information on how to set these.

You may choose to use an Art in response to your party member's Soul Voice.

The Art you should use in response corresponds to the color of the Soul Voice text that appears on the screen. Use an Art with an icon color that matches for an additional effect. The following tips will give you an advantage over your enemies.

Attack from Blind Spots

Attacking enemies from behind, above, or below improves your accuracy and your odds of landing critical hits.

- ◆ Some enemies may require you to use both a Stagger and a Topple Art against them to ensure a successful Toppling.

Destroy Enemy Appendages

Destroy an enemy's individual body parts, such as its legs or tail, by reducing that appendage's HP to zero. By destroying appendages, you can disable attacks that rely on those body parts. Your damage will increase and the enemy's resistances (all types) will decrease per each appendage destroyed.

◆ There are certain materials 26 that can be obtained only by destroying enemy appendages.

2 Appendage HP

3 Enemy's HP

Overdrive

Enhances all your combat abilities for a limited time

◆ You keep your TP after each battle but will lose it all if you become incapacitated.

If you're incapacitated, your party members will attempt to revive you if any of them have 3,000 TP.

Once you accrue 3,000 TP, select  from the Arts list to spend the TP on the powerful Overdrive ability. Overdrive greatly enhances your combat abilities for a limited time.

◆ This becomes available at a certain point in the game.

◆ No matter which weapons are used during Overdrive, all Arts will have a tertiary cooldown.

Using Overdrive Effectively

Overdrive Counter

Each successful hit from an Art during Overdrive will increase the Overdrive counter. The bonuses provided by the Overdrive counter will strengthen the higher the counter goes.

▶▶ Color Combo

The color of the Overdrive counter changes upon using different types of Arts. Different color orders (such as going from green to yellow) will grant different effects.

◆ These combos are only effective if Arts are used during Overdrive.

Double Overdrive Counter Bonus	Doubles the amount the Overdrive counter increases by upon using Arts.
Appendage Damage Up	Increases damage dealt to the enemy's individual appendages.
HP Recovery	The character that activated the color combo recovers a little HP.

EXP Bonus	Increases the amount of EXP earned  18 .
Class EXP Bonus	Increases the amount of class EXP earned  18 .

» Party Chain

2 Members

Soul Voices will occur more often.

3 Members

Gain 50 additional TP per hit when using an Art.

4 Members

Gives all party members the buff Super Armor, which reduces all damage taken by 50%.

◆ While Super Armor is active, you and your party members will not be affected by debuff effects, such as Stagger, Topples, Knockback, Launch, and Flinch.

» Extending Overdrive

You can extend Overdrive by accumulating 3,000 TP before the Overdrive effect is over and initiating it once more.

⇒ Class EXP
