

Additional: Eyes

Cut these out for assembly – be careful with scissors!

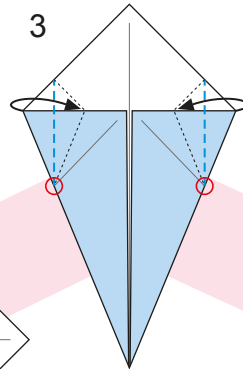

Fold along with this video guide! <https://youtu.be/I5PwkdjZSCQ>

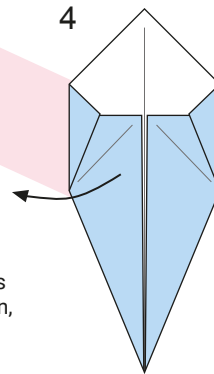

1
Fold in half both ways, lining up corners and creasing.

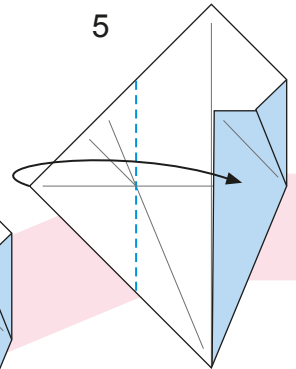

2
Fold in left and right corners, lining edges up with center crease.

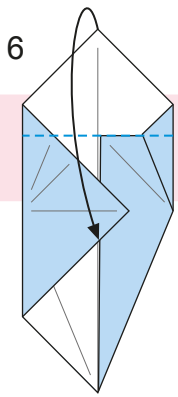

3
Fold the left and right sides inwards at the points shown, so the corners align with the front folds

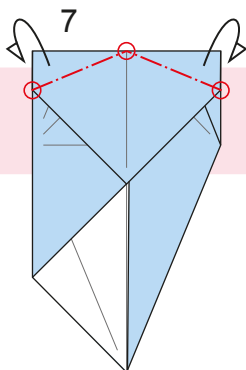

4
Open the left-hand side.

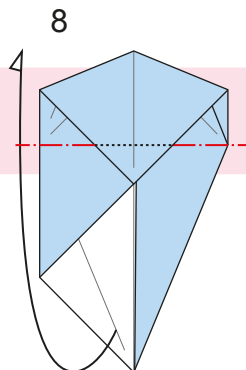

5
Fold the left tip to the right along the vertical crease created in Step 3, creasing all the way down.

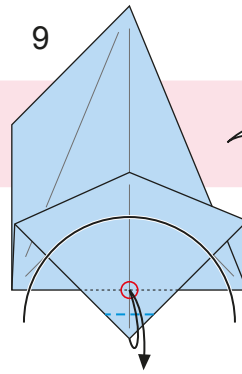

6
Fold top tip down until fold is level with edge of right-hand panel, then crease.

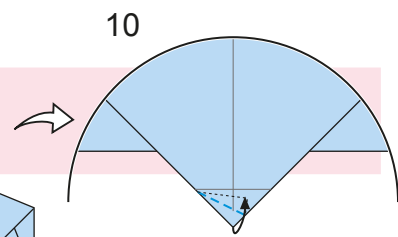

7
Fold the top left and right corners to the back, along the dotted red lines shown.

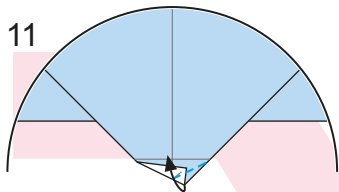

8
Fold the bottom tip backwards and up, along the horizontal crease from Step 1.

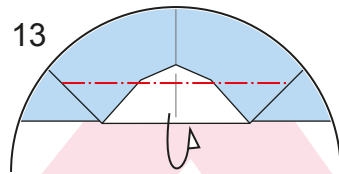

9
Fold the front panel bottom tip up to be level with the bottom edge of the panel behind, then crease and open.

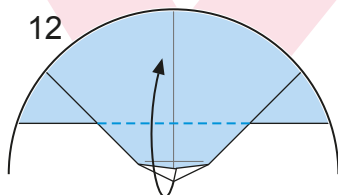

10
Fold the left side of the bottom tip in a small amount, leaving a gap from the crease in Step 9.

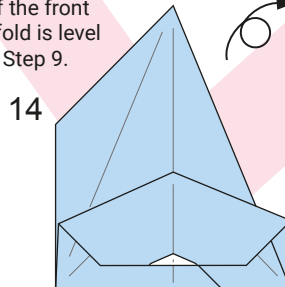

11
Repeat Step 10 on the right side of the bottom tip.

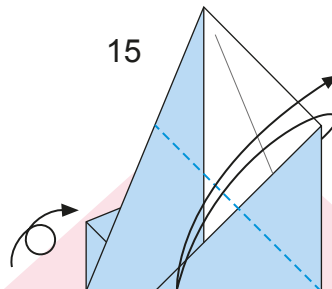

13
Fold the bottom edge of the front panel backwards so the fold is level with the crease from Step 9.

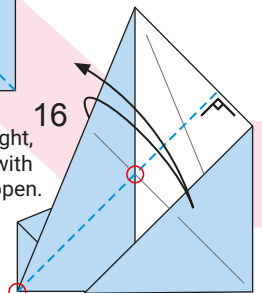

12
Fold this shallow bottom tip up so the new fold is level with the bottom of the panel behind.

14
Flip the paper over.

15
Fold bottom left tip to right, so bottom edge aligns with right edge. Crease and open.

16
Fold top-left corner across to the right along dotted line shown, keeping top right edge aligned. Crease and open.

Widen Gap / Pull Out

Important Points

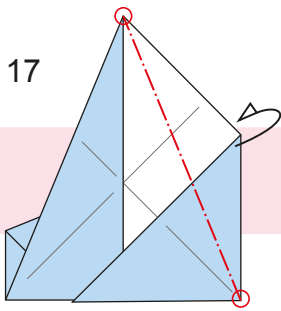

Flip Over / See Back Side

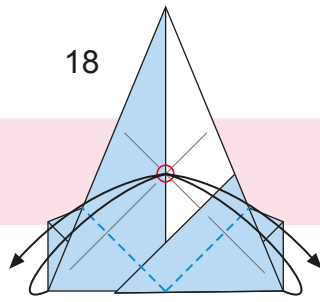

Enlarged View

17

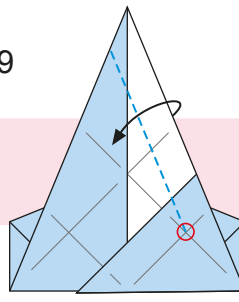

Fold right side of front panel backwards to the rear along the existing crease.

18

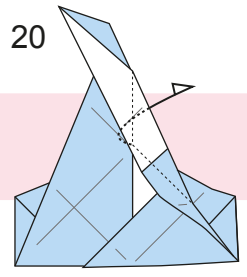

Fold the bottom left and bottom right corners into the center, then crease and open.

19

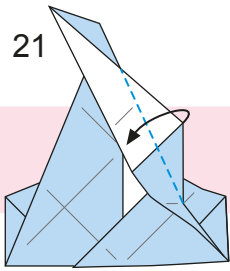

Fold right side of front panel in, parallel to edge. Don't crease below the middle of the crossed creases!

20

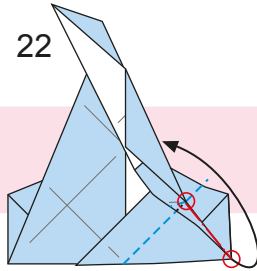

Fold out the tip from behind this new crease...

21

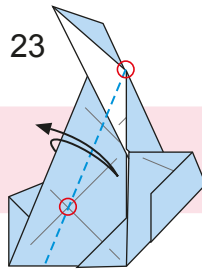

...then fold it over to the left along the existing crease.

22

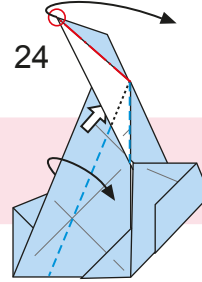

Fold the bottom left corner panel up so the point meets the tip from Step 21 and the edge aligns with the vertical center crease.

23

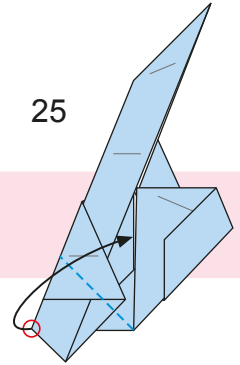

Fold whole left-hand side over to the right along the dotted line shown. Crease and open.

24

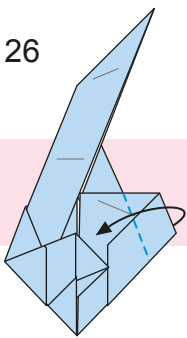

Open gap at white arrow, then pull gently at point shown and fold left-hand side over to the right.

25

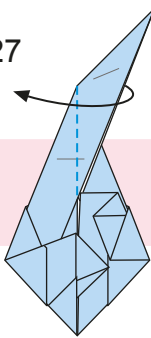

Fold bottom left corner over so bottom edge aligns with vertical center crease and point overlaps. Right panel.

26

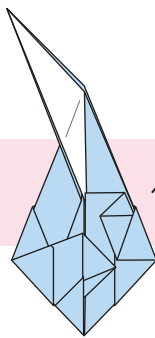

Fold right corner in so fold is level with edge of the panel behind it.

27

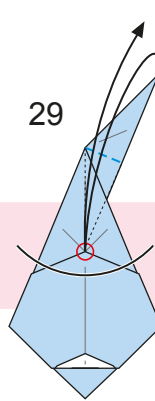

Fold the top tip over to the left along existing crease.

28

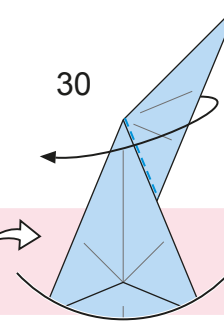

Flip the paper over.

29

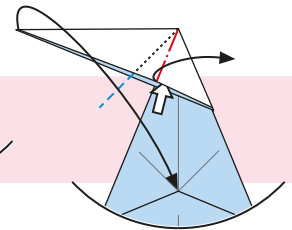

Fold top tip down to top of front panel, then crease and open.

30

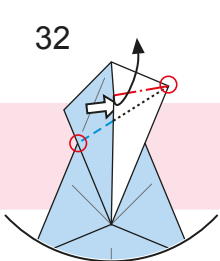

Fold top tip across to the left along right edge.

31

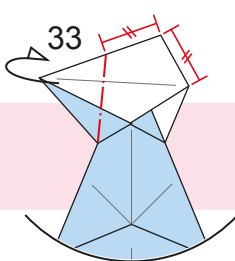

Open gap at white arrow and, using existing creases, fold top tip down to top point of front panel.

32

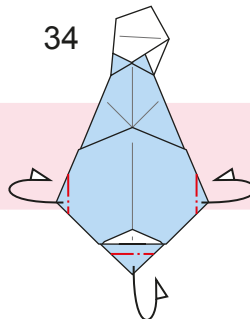

Open gap at white arrow and use existing creases to collapse tip to the left.

33

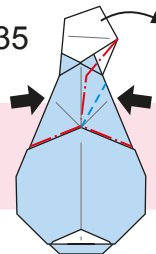

Fold left tip backwards to the right, behind the rest of the panel.

34

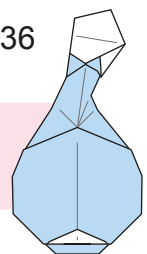

Fold left, right and bottom tips backwards to create a rounded head shape.

35

Gently pinch top section along the center fold to form a slight peak on the head.

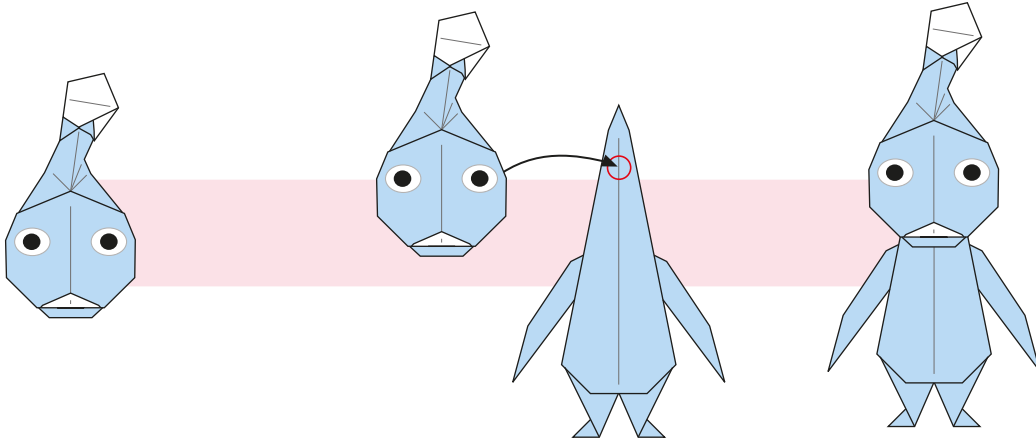

36

You're done!

Blue Pikmin Assembly

Glue on the eyes.

Use the same size paper for head and body.
Apply glue to point shown and attach head to body.

You're done!
