

Nintendo USB AC adapter

Health and Safety Information

Please read and observe the health and safety information. Failure to do so could result in injury or damage.

WARNING

- AC adapters for toys are not intended to be used as toys, and the use of these products by children shall be under the full supervision of parents.
- Connect the AC adapter to the correct voltage (AC 100 – 240V). The AC adapter should be plugged into a nearby, easily accessible socket. Pull out the earth pin before inserting the plug into the socket. The AC adapter is for indoor use only.
- When connecting the USB cable to the AC adapter, make sure the connector is orientated correctly. When disconnecting the USB cable from the AC adapter, pull the connector without too much force.
- Unplug the AC adapter from the socket when not in use.
- Do not let the AC adapter come into contact with liquid and do not use it with wet or oily hands. If liquid gets inside, stop using and contact Nintendo Customer Support.
- Do not expose the AC adapter to excessive force, high temperatures, direct sunlight or humid environments.
- Do not touch device connectors with your fingers or metal objects.
- Do not touch the AC adapter if it is plugged in during a thunderstorm.
- If you hear a strange noise, see smoke or smell something strange, unplug the AC adapter from the socket and contact Nintendo Customer Support.
- Do not disassemble or try to repair the AC adapter. If the AC adapter is damaged, stop using it and contact Nintendo Customer Support. Do not touch damaged areas.
- Keep the AC adapter and packaging materials away from young children.

CAREFUL USAGE

If the AC adapter becomes dirty, wipe it with a soft, dry cloth. Avoid using alcohol, thinner or other solvents.

Disposal of this Product

Do not dispose of this product in household waste.

For details see <http://docs.nintendo-europe.com>

Ecodesign Information

Commercial registration number of EU authorised representative	HRB 101840
Model identifier	CLV-003(UKV)
Input voltage	AC 100-240V
Input AC frequency	50/60Hz
Output voltage	DC 5.0V
Output current	1.5A
Output power	7.5W
Average active efficiency	76.6%
Efficiency at low load (10%)	—
No-load power consumption	0.10W

Manufacturer: Nintendo Co., Ltd.,
Kyoto 601-8501, Japan

Importer in the EU: Nintendo of Europe GmbH,
Herriotstrasse 4, 60528 Frankfurt, Germany

UK economic operator: Nintendo UK,
Quadrant, 55-57 High Street, Windsor SL4 1LP, UK
